Career Objective

To secure a challenging role as a **Python Developer & Automation Specialist**, where I can apply my expertise in **web scraping, API development, and backend systems** to build scalable data-driven solutions, while continuously learning and contributing to organizational success.

Education Qualifications

B.E. in Computer Science (AI/ML) with CGPA of 7.52/10   *2022-2025*

New LJ Institute of Engineering & Technology (GTU)

Internship –Python Developer

Company : **Technowire Datascience** Pvt. Ltd**.** , Ahmedabad   *Jan to Feb - May 2025*

- Developed **Python-based web scraping** and **data analysis pipelines** for real-time data processing..
- Automated collection & cleaning of datasets, improving efficiency by **30%**.
- Worked with professional coding standards, collaborative teamwork, and agile methodologies.

Internship – Python Developer

Company : **Actowiz Solutions**, Ahmedabad   *Jun – Sept 2025*

- Built a **FastAPI-based Dashboard** with MongoDB, Tailwind CSS, and real-time charts to manage API keys, roles, and request tracking.
- Implemented **dynamic logging & analytics** for efficient monitoring and performance analysis.
- Deployed scalable web applications on cloud platforms (Render).

Projects

Blinkit Product Scraper (API & Web App) – *FastAPI, Jinja2, REST APIs*

- Designed and deployed a **scalable scraping system** to fetch real-time product data from Blinkit.
- Provided **REST API + UI** for users to test APIs directly in browser.
- Deployed successfully on Render for public use.

Amazon ASIN Scraper – *FastAPI, Python, Regex Parsing*

- Developed **ASIN-based scraper** with impersonated requests & anti-detection mechanisms.
- Extracted structured product details (price, ratings, images) with **high reliability**.

Flipkart Product Scraper API + UI – *FastAPI, Tailwind CSS*

- Created REST API to extract product details (price, reviews, images).
- Built a **modern Tailwind UI** and hosted on Render for interactive usage.

Shreeji Enterprises (E-commerce Platform) – *Django, PostgreSQL, Tailwind CSS*

- Built a **full-stack e-commerce platform** with OTP-based authentication, role-based admin dashboard, and product management system.
- Integrated PostgreSQL with responsive frontend for smooth user experience.

Technical Learnings

- **Programming:** Python, C, C++, Java

- **Web Development:** FastAPI, Django, Flask, Jinja2, Tailwind CSS, HTML, CSS, JavaScript

- **Scraping Frameworks:** Scrapy, BeautifulSoup, Regex, curl_cffi, lxml

- **Databases:** MongoDB, MySQL

- **Tools & Platforms:** GitHub, Postman, VS Code, PyCharm, Render

- **Core Competencies:** Web Scraping, API Development, Automation, Backend Development, Data Engineering

Achievements & Highlights

- Successfully deployed **3+ production-ready scraping APIs** on Render.

- Built portfolio website **optimized for SEO** with GitHub Pages + Google Search Console.

- Regular contributor to **GitHub projects** with detailed README documentation.
